

India shines at the International Olympiads

In 2017, India continued its success in International Olympiads. As in previous years, nearly every Indian student who participated in the International Olympiads in Science and Mathematics held last year returned with a medal. In particular, India has secured 10 gold, 12 silver medals, 4 bronze medals, and 4 Honorable mentions among the 30 participants. One Indian student obtained the award for Best Performance in Theoretical Competition in the International Olympiad on Astronomy and Astrophysics in 2017.
