TATA INSTITUTE OF FUNDAMNTAL RESEARCH
ENDOWMENT fund

Prof. R Narasimhan Memorial Lecture Award

Objective

This Endowment will fund the expenses for selected world-class scientists working in computer science or technology who will be attending an international conference/seminar in the broad field of computer sciences, to be held in India, and to give a public talk under the name of the “Professor R Narasimhan Memorial Lecture”.

The Public Lecture shall be broadcast on the Internet and made available for subsequent viewing as well.

Conditions

- One award is to be given annually in the field of “Computer Science and Technology” and will recognize advances in hardware, software, theoretical aspects of computing, or applications of computing.
- The award will recognize the achievement of younger professionals only and hence will be restricted to professionals up to the age of 40 years.
- Recipients of the award should hold a degree from an Indian university, excluding honorary degrees.
- The Award will be in the form of a scroll, with a trophy or plaque (rather than in monetary form).
- The awardee will deliver a public talk titled the “Professor R Narasimhan Memorial Lecture” on the topic for which the recipient is being recognized, apart from participating in the conference/seminar. The recipient will be required to come to TIFR to deliver the Public Lecture.
- The award will cover all expenses including accommodation and travel in economy class.
