

List of Publications: Prof. Pranab Ghosh

PUBLICATIONS IN REFEREED JOURNALS

“Deuteron Wave Function at Small Distances”, Ghosh, P., and Noravcsik, M.J., 1974, Phys Rev (Letters), 32, 321

“Accretion by Rotating Magnetic Neutron Stars. I. Flow of Matter Inside the Magnetosphere and Its Implications for Spin-up and Spin-down of the Star”, Ghosh, P., Lamb, F.K., and Pethick, C.J., 1977, Ap J, 217, 578

“Disk Accretion by Magnetic Neutron Stars”, Ghosh, P., and Lamb, F.K., 1978, Ap J Letters, 223, L83

“Accretion by Rotating Magnetic Neutron Stars. II. Radial and Vertical Structure of the Transition Zone in Disk Accretion”, Ghosh, P., and Lamb, F.K., 1979, Ap J, 232, 259

“Accretion by Rotating Magnetic Neutron Stars. III. Accretion Torques and Period Changes in Pulsating X-ray Sources”, Ghosh, P., and Lamb, F.K., 1979, Ap J, 234, 296

“Observations of Cygnus X-3 with the Einstein HEAO-2 X-ray Observatory: The Period Derivative and the Asymmetric X-ray Light Curve”, Ghosh, P., Elsner, R.F., et al., 1980, Ap J, 239, 335

“The Asymmetric 4.8 Hours X-ray Modulation of Cygnus X-3: Model Light Curves and Inferred Orbital Parameters”, Ghosh, P., Elsner, R.F., et al., 1981, Ap J, 251, 230

“On the Origin and Persistence of Long Period Pulsating X-ray Sources”, Ghosh, P., Elsner, R.F., and Lamb, F.K., 1980, Ap J Letters, 241, L155

“Time-Resolved Imaging and Spectral Studies of an X-ray Burst from the Globular Cluster Terzan 2”, Ghosh, P., Grindlay, J., et al., 1980, Ap J Letters, 240, L121

“Observations of SMC X-1 with the Monitor Proportional Counter on the Einstein (HEAO-2) X-ray Observatory: The Pulse Period and its History”, Ghosh, P., Darbro, W., et al., 1981, Ap J, 246, 231

“Convective Accretion Disks and the On-set of Dwarf Novae Outbursts”, Ghosh, P., Cannizzo, J.K., and Wheeler, J.C., 1982, Ap J Letters, 260, L83

“Evolution of Accretion Tori Orbiting Black Holes. I. Theory”, Ghosh, P., Abramowicz, M.A., and Henderson, P.F., 1983, MNRAS, 203, 323

“Oblateness Effects on the Spin-down of Fast Pulsars”, Ghosh, P., Cowsik, R., and Melvin, M.A., 1983, Nature, 303, 308

“Braking Index Diagnostics of Pulsars. I. Alignment, Counter-alignment and Slowing-down Noise”, Ghosh, P., 1984, J Astrophys Astron, 5, 307

“Towards a Physical Model for Galactic Rotation Curves”, Ghosh, P., and Cowsik, R., 1986, J Astrophys Astron, 7, 7

“Dynamical Effects of an Extended Cloud of Dark Matter on Dwarf Spheroidals”, Ghosh, P., and Cowsik, R., 1986, J Astrophys Astron, 7, 17

“Dark Matter in the Universe: Massive Neutrinos Revisited”, Ghosh, P., and Cowsik, R., 1987, Ap J, 317, 26

“A New Example of the Papaloizou and Pringle Instability”, Ghosh, P., Abramowicz, M.A., and Blaes, O.M., 1987, Ap J, 323, 629

“Thermodynamics And Orientational Order In Systems Of Extended Gravitating Objects. A Mean - Field Theory Approach. I. Basic Formalism”, Ghosh, P., Bhattacharjee, P., and Cowsik, R., 1989, Ap J, 339, 638

“Thermodynamics And Orientational Order In Systems Of Extended Grav-

itating Objects. II. Tidal Distortions And The Interaction Pseudopotential”, Ghosh, P., Bhattacharjee, P., and Cowsik, R., 1989, Ap J, 345, 647

“Nonaxisymmetric Instabilities In Rotating Shear Flows : Internal Gravity Modes In Stratified Media And Analogies With Plane Flows”, Ghosh, P., and Abramowicz, M.A., 1991, Ap J, 366, 221

“Rotation of T Tauri stars: Accretion Disks and Stellar Dynamos”, Ghosh, P., 1994, MNRAS, 272,763

“Disk Diagnostics and Torque Mapping in X-ray Pulsars: BATSE Observations of A0535+26” , Ghosh, P., 1996, Ap J, 459, 244

“Spindown of Neutron Stars in Massive Radio Pulsar Binaries: The Periastron Passage of PSR B1259-63”, Ghosh, P., 1995, Ap J, 453, 411

“Seismology of the Solar f-mode .I. Basic Signatures of Shearing Velocity Fields ”, Ghosh, P., Antia, H. M., and Chitre, S.M. 1995, Ap J, 451, 851

“The Spectrum of the 8.7 s X-ray Pulsar 4U 0142+61”, White, N.E., Angelini, L., Ebisawa, K., Tanaka, Y., and Ghosh, P. 1996, ApJ, 463, L83

“The Nature of the ‘6-second’ and Related X-ray Pulsars: Evolutionary and Dynamical Considerations”, Ghosh, P., Angelini, L., and White, N. E. 1997, ApJ, 478, 713.

“Electromagnetic extraction of rotational energy from disk-fed black holes: the strength of the Blandford-Znajek process” Pranab Ghosh and Marek A. Abramowicz, Mon. Not. Roy. Astron. Soc., 292, 887 (1997).

“Gravitational waves from ultracompact stars: the optical geometry view of trapped modes” Marek A. Abramowicz, Nils Andersson, Marco Bruni, Pranab Ghosh and Sebastiano Sonego, Classical and Quantum Gravity, 14, L189 (1997).

“Low-mass X-ray binaries, millisecond radio pulsars, and the cosmic star formation rate” Nicholas E. White and Pranab Ghosh, Astrophysical Journal (Letters), 504, L31 (1998).

“Viscous stability of relativistic Keplerian accretion disks” Pranab Ghosh, Astrophysical Journal (Letters), 506, L109 (1998).

“Cosmic rays from remnants of quasars?” Elihu Boldt and Pranab Ghosh, *Mon. Not. Roy. Astron. Soc.*, 307, 491 (1999).

“The structure of black hole magnetospheres. I. Schwarzschild black holes” Pranab Ghosh, *Mon. Not. Roy. Astron. Soc.*, 359, 89 (2000).

“An orbital light-curve model for GX 301-2” Steven H. Pravdo and Pranab Ghosh, *Astrophysical Journal*, 554, 383 (2001).

“X-ray probes of cosmic star formation history” Pranab Ghosh and Nicholas E. White, *Astrophysical Journal (Letters)*, 559, L97 (2001).

“The consequences of the cosmic star formation rate: X-ray number counts” A. Ptak, R. Griffiths, N. White and P. Ghosh, *Astrophysical Journal (Letters)*, 559, L91 (2001).

“Probes of cosmic star formation history”, P. Ghosh, *Journal of Astrophysics and Astronomy*, 23, 107 (2002).

“Collisional hardening of compact binaries in globular clusters”, S. Banerjee and P. Ghosh, *Mon. Not. Roy. Astron. Soc.*, 373, 1188 (2006).

“Evolution of compact-binary populations in globular clusters: A Boltzmann study. I. The continuous limit”, S. Banerjee and P. Ghosh, *Astrophysical Journal*, 670, 1090 (2007).

“Evolution of compact-binary populations in globular clusters: A Boltzmann study. II. Introducing stochasticity”, S. Banerjee and P. Ghosh, *Astrophysical Journal*, 680, 1438 (2008).

“Can disk-magnetosphere interaction models and beat frequency models for quasi-periodic oscillation in accreting X-ray pulsars be reconciled?”, E. Bozzo, L. Stella, M. Vietri and P. Ghosh, *Astronomy & Astrophysics*, 493, 809 (2009).

“Young pre-low-mass X-ray binaries in the propeller phase. Nature of the 6.7-h periodic X-ray source 1E 161348-5055 in RCW 103”, H. Bhadkamkar and P. Ghosh, *Astronomy & Astrophysics*, 506, 1297 (2009).

“Scientific prospects for hard X-ray polarimetry”, Krawczynski, H.; Garson, A.; Guo, Q.; Baring, M. G.; Ghosh, P.; Beilicke, M. & Lee, K., *Astroparticle*

Physics, 34, 550 (2011).

“Collective Properties of X-Ray Binary Populations of Galaxies. I. Luminosity and Orbital Period Distributions of High-mass X-Ray Binaries”, H. Bhadkamkar and P. Ghosh, *Astrophysical Journal*, 746, 22 (2012).

“Collective Properties of X-Ray Binary Populations of Galaxies. II. Pre-Low-mass X-Ray Binary Properties, Formation Rates, and Constraints”, H. Bhadkamkar and P. Ghosh, *Astrophysical Journal*, 784, 97 (2014).

BOOKS PUBLISHED & CONFERENCE PROCEEDINGS EDITED

“Rotation and Accretion Powered Pulsars”, Pranab Ghosh (2007), World Scientific Publications, Singapore. 792 pages, published April 2007, ISBN Nos. 978-981-02-4744-7 and 978-981-02-4744-3. More details and expert comments available at the following website:

<http://www.worldscibooks.com/physics/4806.html>

Review of the book published in *Space Science Reviews*, online version available at website:

<http://www.springerlink.com/content/u7k31222r12044j6/>

“Spectra and Timing of Compact X-ray Binaries”, Proceedings of the COSPAR Colloquium held in TIFR, Bombay, India, January 2005, edited by Pranab Ghosh and E. P. J. van den Heuvel, *Advances in Space Research*, vo. 38, no.12 (2006), pp.2661-3032. Elsevier and Co., Amsterdam, The Netherlands, ISSN: 0273-1177.

PUBLICATIONS IN BOOKS, CONFERENCE PROCEEDINGS, ETC

“Period Changes in Neutron Star X-ray Sources Accreting from a Disk”, Ghosh, P., and Lamb, F.K, 1979, *Advances in Space Exploration*, 3, 259

“Convective Accretion Disks and the Dwarf Novae Instability”, Ghosh, P., Cannizzo, J.K., and Wheeler, J.C., 1982, in *Pulsations in Classical and Cataclysmic Variable Stars*, (Boulder: University of Colorado Press), 13

“Accretion Instability Models for Dwarf Novae and X-ray Transients”,

Ghosh, P., Cannizzo, J.K., and Wheeler, J.C., 1983, in Proc. Cambridge Workshop on Cataclysmic Variables and Low-Mass X-ray Binaries (Dordrecht: Reidel)

“Why are Most X-ray Pulsars Slow?”, Ghosh, P., and Apparao, K.M.V., 1983, in Proc. Munich Workshop on Accreting Neutron Stars, (eds. W. Brinkmand and W. Trumper), 97

“Gravitational Lenses as Probes of the Distribution of Dark Matter in the Universe”, Ghosh, P., and Cowsik, R., 1986, Proc. IAU Symp. No. 119, Quasars, eds. G. Swarup and V.K. Kapahi, (Dordrecht: Reidel), p. 545

“Rotation Curves and Profiles of Surface Density of Galaxies Embedded in Extensive Neutrino Clouds”, Ghosh, P., and Cowsik, R., 1986, Proc. XIX IAU General Assembly Commission 28, New Delhi, p. 226

“Plasma Physics of Accreting Neutron Stars”, Ghosh, P., and Lamb, F.K., 1991, in Neutron Stars: Theory and Observation, Proceedings of the NATO Advanced Study Institute, Crete, September 1990, eds. J. Ventura and D. Pines (Dordrecht: Kluwer Publ.), p. 363

“Interaction of Accretion Disks with Magnetospheres”, Ghosh, P., and Lamb, F.K., 1992, in Particle Acceleration Near Accreting Compact Objects, eds. J. van Paradijs and M. van der Klis (Amsterdam: Royal Netherlands Academy of Sciences), p. 31

“Diagnostics of Disk-Magnetosphere Interaction in Neutron Star Binaries”, Ghosh, P., and Lamb, F.K., 1992, in X-ray Binaries and the Formation of Binary and Millisecond Radio Pulsars, Proceedings of the NATO Advanced Research Workshop, Santa Barbara, January 1991, eds. E. P. J. van den Heuvel and S. A. Rappaport (Dordrecht: Kluwer Publ.), p. 487

“Spin Evolution of Neutron stars in Accretion Powered Pulsars”, Ghosh, P., 1994, in Evolution of X-ray Binaries, eds. S.S. Holt and C.S. Day (New York: American Inst. of Physics Press), p. 439

“Accretion Disks in Quasars and Active Galactic Nuclei”, Ghosh, P., 1995, in Proc. Vith Asian-Pacific Regional Meeting of the IAU, Puna, August 1993, eds. V.K. Kapahi and N.K. Dadhich, (Bangalore: Indian Academy of Sciences Publ.).

“4U 1626-67: The ROSAT PSPC Observation”, Ghosh, P., Angelini, L., and White, N.E., 1995, in *New Horizon in X-ray Astronomy*, Proc. ASCA Conference, Tokyo, March, 1994, (Tokyo: ISAS Publ).

“Spin Evolution of Neutron Stars in Binary Systems”, Ghosh, P., 1995, in *Pulsars: Diamond Jubilee Symposium of the Indian Academy of Sciences*, Bangalore, March 1994, (Bangalore: Indian Academy of Sciences Publ.), p. 289

“Spin Evolution of the Progenitors of Binary and Millisecond Pulsars”, Ghosh, P., 1996, in Proc. IAU Symposium No. 165 “Compact Stars in Binaries”, August 1994, The Hague, The Netherlands, ed. E.P.J. van den Heuvel et al., (Dordrecht: Kluwer Publ.), p. 57

“Lessons from QPOs in X-ray pulsars” Pranab Ghosh, 1998, in Proc. COSPAR XXXI Scientific Assembly, Birmingham, U. K., Adv. Space Sci., eds. J. H. Swank, C. Kouveliotou and K. Hurley, 22, 1017.

“Spin and Accretion Powered Pulsars”, Ghosh, P., 1998, in “Perspectives in High Energy Astronomy and Astrophysics”, eds. P. C. Agrawal and P. R. Vishwanath (Hyderabad: Universities Press), p. 66.

“Probes of Cosmic Star formation History”, Pranab Ghosh, 2002, in “Multicolor Universe”, eds. R. K. Manchanda and B. Paul, (Bombay: Ebenezer Publ.), p. 127.

“Cosmic star formation history and deep X-ray imaging in the XMM-NEWTON and CHANDRA era”, Pranab Ghosh, 2002, in “New Visions of the X-ray Universe in the XMM-Newton and Chandra Era”, Proc. ESLAB Symposium, November 2001, Noordwijk, The Netherlands, ed. F. Jansen.

“Cosmic star formation history and deep field X-ray studies”, Pranab Ghosh, 2006, in Proc. IAU Symposium 230, “Populations of High Energy sources in Galaxies”, August 2005, Dublin, Ireland, eds. E. J. A. Meurs and G. Fabbiano, Cambridge Univ. Press, p.410.

“Evolution of Compact Binary Populations in Globular Clusters: a Boltzmann Study”, Sambaran Banerjee and Pranab Ghosh, 2008, in Proc. IAU Symposium 246, “Dynamical Evolution of Dense Stellar Systems”, Septem-

ber 2007, Capri, Italy, eds. E. Vesperini, M. Giersz and A. Sills, Cambridge Univ. Press, p.246.

“X-ray polarization signatures of neutron stars”, Ghosh, Pranab, in *X-ray Polarimetry: A New Window in Astrophysics*, eds. Ronaldo Bellazzini, Enrico Costa, Giorgio Matt and Gianpiero Tagliaferri. Cambridge University Press, p. 176 (2010).

“Understanding the X-ray Luminosity Function of High Mass X-ray Binaries”, Bhadkamkar, Harshal; Ghosh, Pranab, AIP Conference Proceedings, Vol. 1314, p. 297 (2010).

TECHNICAL REPORTS & WHITE PAPERS

“Properties of the Angular S-functions”, Ghosh, P., 1988, TIFR-CRSP Technical Report No. 88-21

“White Paper on GEMS Study of Polarized X-rays from Neutron Stars”, Ghosh, P. with 29 co-authors from NASA centers and other institutions, 2013, arXiv:1301.5514
