

- **Organization**

- Tata Institute of Fundamental Research is multidisciplinary research organization engaged in research in the broad areas of Natural Sciences, Pure and Applied Mathematics and Technology and Computer Sciences. Its headquarters is situated at Homi Bhabha Road, Colaba, Navy Nagar, Mumbai 400005. Apart from this, it has the following National Centres, Field Stations/Research Facilities :

- **National Centres**

- [Centre for Applicable Mathematics, Bangalore](#)
- [Homi Bhabha Centre for Science Education, Mumbai](#)
- [International Centre for Theoretical Sciences, Bangalore](#)
- [National Centre for Radio Astrophysics, Pune](#)
- [National Centre for Biological Sciences, Bangalore](#)
- [TIFR Centre for Interdisciplinary Sciences, Hyderabad](#)

- **Field Stations**

- [High Energy Gamma Ray Observatory, Pachmarhi/Hanle \(Ladakh\)](#)
- [India-based Neutrino Observatory](#)
- [Cosmic Ray Laboratory, Ooty](#)
- [Gravitation Laboratory, Gauribidanur](#)
- [TIFR Balloon Facility, Hyderabad](#)
- [National Facility for High-Field NMR](#)
- [Giant Meterwave Radio Telescope, Khodad, Maharashtra](#)
- [Pelletron Linac Facility](#)

- **Functions and duties**

- TIFR is devoted to fundamental research in fundamental sciences. Detailed information on the line of research being pursued at TIFR can be obtained from our website <http://www.tifr.res.in/>
