

## Procedure to use Hostel wireless network in Mac Book

**Note:** Only TIFR hostel residents residing in Brahmagupta and Patanjali are permitted to use the wireless network. Devices used for wireless internet access in the hostel must be registered through Service Request System ([SRS](#)).

### Operating System Compatibility

- Mac Book 11 (Big Sur)

Users are requested to keep their systems updated as older MacBook such as Mac Book Sierra was not compatible for the same.

To configure wireless parameters, one must have administrator's rights on the device.

1. Click on the wireless icon in the top menu.
2. Select **Hostel** network.
3. When prompted, login as follows
  - Username: your LDAP/roundcube username.
  - Password: your LDAP/roundcube password.
4. Click on **Connect** button to get connected to the network.
