

Procedure to use Institute wireless network in IOS

Note: Devices used for wireless internet access in the Institute must be registered through Service Request System ([SRS](#)).

Before setting up wireless follow the below procedure

- Open the Settings on your iPhone, iPad, or iPod, then tap Wi-Fi or WLAN.
 - Tap the information button next to your network.
 - Turn off Private Address.
 - Re-join the network as per below steps.
1. Under Settings | Wi-Fi | Select **TIFR-WIFI**.
 2. Enter your Username as “your LDAP/roundcube username”.
 3. Enter your Password as “your LDAP/roundcube password”.
 4. Then click on Join button.
 5. Click on Trust button, to connect to the **TIFR-WIFI**.
 6. Tick mark at “**TIFR-WIFI**” shows that your now connected to “**TIFR-WIFI**” network.
